Symposium: Connecting to the New University of Chicago Medicine

The Forefront of Medicine and Your Clinical Practice

Celebrate the opening of our new hospital and learn about the technological breakthroughs being used to diagnose and treat cancer, GI disorders, cardiovascular disease and neurological disorders, and risk assessment and personalized treatment based on the genetics of disease.

•
Tour the new state-of-the-art hospital and learn how it will advance University of Chicago Medicine programs.

•
Find out more about the new Bucksbaum Institute for Clinical Excellence, a unique initiative focused on improving doctor-patient interaction.

8 a.m. to 4 p.m. November 10

Our new hospital at the University of Chicago Medicine
5700 S. Maryland Ave., Chicago, IL
